Dear Bob,

a friend who is with an assessment ~~ons~~ research group (& I'm not associated ~~with~~ with any of them) sent me a reprint of a book by a reporter who knew Jack Ruby personally. He'd been a Dallas reporter before he went to work in Washington & he was in the motorcade when JFK was killed. He also said that he saw Ruby at the hospital a few minutes after JFK was taken there & official dom refused to believe him. (I do) I don't know if my ~~thinking~~ thinking interests you, or interests you enough to struggle with my scrawl, but on the chance it might, here is a copy.

Best to you all

Harold
